## /// MAZES

Left, on the worldmap, the party arrives at Kovas' Camp; its dialogue is triggered.

Kovas' Camp is one of the larger plot nodes in the game: depending by the players' current and past choices (items and companions found as well), one of sixteen different outcomes can be met.

Those outcomes take the player to about a dozen different sub-plot nodes, and to one of a dozen arenas / large mazes.

All of the above looks like one linear story to the player; it can either unfold in one of the different parts of Kovas' Camp, or in one of the many arenas representing the camp destroyed, or in nearby areas crawled by different monsters, or in a farther area where an ambush takes place, and even in an arena representing one of Setrani's dreams while sleeping in the camp.

Or, it unfolds in none of them, and the story can go on in further dialogues, bridging the gap to the city of Pantella, to where Setrani returns.
