SHUT UP AND TAKE MY MONEY!. Classic HOS game, but for one thing : silhouette HOS .. they look like HOS but you actually end up manipulating objects forward and backward, moving them from left to right.. untill they fit the perfect shape to a certain angle. I found these quickly boring. Some achievements will require you to accomplish them under a minute. As most games of the genre, the story isn't ambitious but it gets the job done, driving you from many nice and somewhat easy puzzles to few classic HO scenes and some silhouette HO thingy. I still recommend it, especially if on sales.

One big pro : The more or less chip music of the retro arcade video game "Flap for Life" (a game in the game) with many chip sounds of 8-bit music. That was a good and enjoying surprise!. Not interesting still.. Boring old game with bad controls. Don't get how to play.. Tanya is amazing, worth getting if your a hardcore fan or a newcomer who wants something new and fun to play as. I liked it... the game only takes an hour or two max without any help. Alright story, decent mechanics. I like the graphics. Fun and recommend it but just know it won't take more than an hour or two.

Tomato Jones is back to face the danger! If the first game was hard, this one will make you see a tomato that will be mashed, drowned, burnt and a more over and over and over and over again XD

The old controls are back. You can move forward, backward, left and right as well jump, which will require all of your platforming skills to dominate such moves.

The addition of water is a plus, it is funny to see the tomato drowning lol

Another plus is that you now can put those coins you collect into use to buy other hats for Tomato Jones which are the ones the enemies use (helmet, the indian headdress, a viking helmet, a feathered hat (which reminds me a lot to the one The Mask uses XD) and that hat the Generals use which I don't remember its name right now n.nU

At least now you can give your tomato a new look with those hats XD

And of course, you don't even have to waste your breath getting angry when you die since the game does that for you pretty well with all those funny phrases you randomly get when Tomato Jones dies XD

Just a thing for Ati graphics owners. The game loads well, you can play well, but when you finish a level, if you click on any of the options (next level, return to map or exit game), the game will freeze. I already reported this to the game's dev via Tomato Jones facebook page and he will look into it :)

It may not happen with all the Ati models, but I thought in tell you so you won't get the surprise. Then again the game just got launched, so it is normal for it to have some bugs here and there, but nothing that can't be solved via an update later.

The game's price remains in a very affordable price, and you will get a really fun and challenging game, which reminds you of the glorious old school gaming. That one in which the games weren't too complex and yet they were challenging and fun :).

Zombies

Just... Zombies!

Multiplayer? NO

Campaign? NO

ZOMBIES!!! EDIT: The dude's remaking the game, so definitely keep a watch on this.

This game has a lot of promise. I'm a big fan of the graphics, weapons, combat and general feel of it. It's pretty awesome to dock with an abandoned ship to search for supplies, only to have a hoard of aliens and nano-zombies try kick your balls up through your mouth. However, it's got a decent amount of glitches and really not all that much to do. You kill and search a ship, planet or space station for, hacking tools, medkits, explosives and ammo so you can kill more. There seem to be missions in, but I'm not sure if they even work. It seems like it should be in early access. It's definitely not worth the \$10 price tag, but would be if there were more additions to it.

I really, really wanna give this game a thumbs up.. Wierd ruski game, clunky mechanics and is so♥♥♥♥♥its funny.. I would not get this as the dress up and character creation does nothing for the game itself and you cannot use your much better creation over the "meh" character you play as in the game. Plus, you can only dress up a girl with a way above average body and not a male or a fat girl...just an athletic girl is all you can do.
